Sustainable Finance Disclosure Regulation

(SFDR) Categorization: ARTICLE 8

SFDR Categorisation sets out how the fund is categorised for the purposes of Regulation (EU) 2019/2088 on Sustainability-related Disclosures in the Financial Services Sector. Article 8 Sub-Funds promote environmental and/or social characteristics with further details set out in the Prospectus and relevant Sub-Fund Supplement.

Investment Objective & Philosophy

The Sub-Fund seeks to achieve above average total return consistent with prudent investment management over a full market cycle. To achieve this objective, the Sub-Fund invests in residential mortgage-backed securities, commercial mortgage-backed securities and other asset-backed securities and in derivative instruments that provide investment exposure to such securities. The Sub-Fund investments may have interest rates that are fixed, variable or floating. The Sub-Fund may invest in securities denominated in any currency and the Investment Manager intends to hedge any non-USD denominated instruments back into USD. The Sub-Fund may invest in both investment grade and non-investment grade debt securities. The Sub-Fund may also invest in other fixed income securities, including, but not limited to, bonds, notes, and other fixed income instruments (including Rule 144A and Reg S securities) issued by governmental or private-sector issuers. The Sub-Fund may invest in derivative instruments, including, but not limited to, options, futures, swaps and credit default swaps. The Sub-Fund may also purchase or sell securities on a when-issued, delayed delivery or forward commitment basis.

The TCW Global Securitised Fund is an ESG Promotion Sub-Fund and employs a proprietary ESG research framework to evaluate and score bonds and other securities. Factors incorporated in the proprietary research score vary by asset class and may include indicators such as factors related to physical and transition climate risk, lending standards and practices, deal terms and governance, and community impact among many other topics.

TCW Article 8 Sub-Funds aim to promote positive environmental and social characteristics, by investing in companies that are managing ESG and sustainability risks, that are meeting a minimum standard for sustainable investments, and where TCW seeks to leverage its influence as an investor to engage with portfolio companies in order to improve sustainability practices and outcomes.

Source: TCW, Bloomberg ¹ TCW Criteria enables us to identify assets including traditional Agency MBS pools with strong social and sustainable characteristics in order to focus on the most-affordable pools of assets within the broader GSE lending landscape. Other opportunities also include U.S. government backed lending programs like FFELP student loans, Small Business Administration lending, manufactured housing, etc. ² ESG CLO: Captures CLOs with ESG criteria such as strong exclusionary language, positive selection, ESG scoring, and/or CLOs with a low weighted average carbon intensity.

RISKS

The Share Class is assigned to this risk category because of price variations resulting from its currency and the nature of the Sub-Fund's investments and strategy. The above rating is based on the historic volatility of the Share Class and may not be a reliable indication of the future risk profile of the Share Class. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

High Yield securities can be subject to greater fluctuations in value and risk of loss of income and principal than higher-rated securities. Fixed income investments entail interest rate risk, the risk of issuer default, issuer credit risk, and price volatility risk. Sub-Funds investing in bonds can lose their value as interest rates rise and an investor can lose principal. The Sub-Fund's investments denominated in foreign currencies will decline in value if the foreign currency declines in value relative to the U.S. dollar. Sub-Fund share prices and returns will fluctuate with market conditions, currencies, and the economic and political climates where the investments are made. The securities markets of emerging market countries can be extremely volatile. Mortgage-backed and other asset-backed securities often involve risks that are different from or more acute than risks associated with other types of debt instruments. MBS related to floating rate loans may exhibit greater price volatility than a fixed rate obligation of similar credit quality. With respect to non-agency MBS, there are no direct or indirect government or agency guarantees of payments in pools created by non-governmental issuers. Non-agency MBS are also not subject to the same underwriting requirements for the underlying mortgages that are applicable to those mortgage-related securities that have a government or government-sponsored entity guarantee.

GENERAL

This marketing document is issued by TCW Funds (the "Fund"). It is neither directed to, nor intended for distribution or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation. Only the latest version of the Fund's prospectus, key investor information documents, articles of incorporation, annual and semi-annual reports (if any) may be relied upon as the basis for investment decisions. These documents and other information regarding the Fund are available at no cost on www.fundsquare.net, www.TCW.com, or at TCW Funds, 3, rue Jean Piret, L-2350 Luxembourg. The Fund has been set up under the laws of the Grand-Duchy of Luxembourg.

The information and data presented in this document are not to be considered as an offer or solicitation to buy, sell or subscribe to any securities or financial instruments. Information, opinions and estimates contained in this document reflect a judgment at the original date of publication and are subject to change without notice. The Fund has not taken any steps to ensure that the securities referred to in this document are suitable for any particular investor and this document is not to be relied upon in substitution for the exercise of independent judgment. Tax treatment depends on the individual circumstances of each investor and may be subject to change in the future. Before making any investment decision, investors are recommended to ascertain if this investment is suitable for them in light of their financial knowledge and experience, investment goals and financial situation, or to obtain specific advice from an industry professional.

ESG/SUSTAINABILITY

ESG Investing Risk: The risk that the Sub-Fund's ESG strategy may select or exclude securities of certain issuers for non-financial reasons, and that the Sub-Fund's performance will differ from Sub-Funds that do not utilize an ESG investing strategy. Additionally, an investment's ESG performance or the Adviser's assessment of such performance may change over time, which could cause the Sub-Fund to temporarily hold securities that do not comply with the Sub-Fund's responsible investment criteria. ESG investing is qualitative and subjective by nature, and there is no guarantee that the criteria used by the Adviser or any judgement exercised by the Adviser will reflect the opinions of any particular investor.

ESG and Sustainability Data Risks: TCW uses best efforts to collect data relevant to the indicators and data collated by third-party providers. In certain instances, data is estimated by TCW. Where TCW uses third-party data it does so relying on the due diligence of that provider but cannot guarantee the accuracy of third-party data. There are also limitations with respect to availability of ESG data in certain sectors. For a number of the indicators there is wide variance amongst the data points provided by third-party data providers, as well as differences between third-party provided data and company disclosure. Additionally, company disclosures for a given indicator may vary in the calculation methodology limiting cross comparability. Market conditions affect certain ratios, calculation methodologies are evolving, and data availability is changing and investor understanding of sustainability risks may be subjective and evolving. Where ESG data is not available, TCW may need to carry out estimations. In addition, there are many instances where TCW analysts disagree with third party ESG research assessments. Further, TCW's evaluation of ESG criteria based on this data is subjective and may change over time. Evaluation of ESG data is subjective and may change due to market conditions, developments in methodologies, data coverage or as understanding of Sustainability Risks evolves.

MSCI DATA

This disclosure was developed using information from MSCI ESG Research LLC or its affiliates or information providers. Although TCW's information providers, including without limitation, MSCI ESG Research LLC and its affiliates (the "ESG Parties"), obtain information (the "Information") from sources they consider reliable, none of the ESG Parties warrants or guarantees the originality, accuracy and/or completeness, of any data herein and expressly disclaim all express or implied warranties, including those of merchantability and fitness for a particular purpose. The Information may only be used for your internal use, may not be reproduced or disseminated in any form and may not be used as a basis for, or a component of, any financial instruments or products or indices. Further, none of the Information can in and of itself be used to determine which securities to buy or sell or when to buy or sell them. None of the ESG Parties shall have any liability for any errors or omissions in connection with any data herein, or any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.
